Civil Action No. C.S. No. 05-499 (JJF)

DATE: November 13, 2007

TIME: 9:00 a.m.

Deposition of PAUL A. MARCUS, held at the offices of Curtis, Mallet-Prevost, Colt & Mosle, 101 Park Avenue, New York, New York,

Page 19 £..... - PAUL A. MARCUS contained in this paragraph with anyone from Fried, 3 Frank? Not to my recollection, no. 5 Did you ever discuss the allegations in 6 this paragraph with anybody else at Huron? Α. Not to my recollection, no. Were you ever asked or did you ever 0. understand that you were being asked to offer any 10 opinions with respect to the allegations contained 11 in Paragraph 51? 12 Objection to the form. MR. KAPLAN: 13 I was never asked to perform any form of Α. 14 insolvency analysis. 15 MR. PIZZURRO: Mark this as Exhibit 3. 16 (Whereupon, Marcus Exhibit 3 was marked 17 at this time.) 18 Mr. Marcus, you've just been handed a 0. 19 document which is marked as Exhibit 3. 20 Do you recognize this as your report 21 submitted in connection with this matter? 2.2 Generally I recognize it. And I'll 23 assume all of the pages were appropriately copied, 24 and it is my report, yes. 25 In connection with issuing this report,

Page 35 1 - PAUL A. MARCUS -2 I guess I can't answer that because if Α. 3 somebody were to ask me a question and phrase it a 4 certain way and ask me for my opinion, I might offer that opinion. But I have written a report 6 that summarizes the things that I've analyzed to date and opinions that I'm setting -- proactively 8 setting forth. But were you to ask me my opinion today on something, if I could give it, I would 10 give it. 11 Have you changed any of the opinions as Q. 12 they're set forth in Marcus Exhibit 3 as of today? 13 I'm a bit confused by your question. A. 14 0. I want to know if your opinion as 15 expressed in the report or any one of them has 16 changed in any way since September 19th, the date 17 of the report, until you're sitting here today? 18 I understand now. No, they have not. Α. 19 Mr. Marcus, you're a CPA, are you not? 0. 20 Α. I'm not, no. 21 0. You are not a CPA? 22 Α. I'm not a CPA. 23 Do you consider yourself an expert on 0. 24 the Montana Public Service Commission? 25 Α. Can you be more specific what you mean

Page 36 + - PAUL A. MARCUS by an expert on the Commission? 3 That's as specific as my question No. is. It's pretty specific. 5 Let me try to answer it then. I can tell you that I have extensive experience working 7 in financing utility companies and reviewing 8 opinions of commissions throughout the country in many jurisdictions. I have experience in reviewing 10 other people's interpretation and understanding of 11 how those commissions function. And I would 12 consider myself an expert in interpreting and 13 understanding how commissions work, what positions 14 they put forth, their interests, and the 15 constituencies that they represent. Do you have any experience in dealing 0. 17 with the Montana Public Service Commission? 18 Α. I don't recall. 19 Have you ever offered opinion testimony Q. 20 as an expert about any aspect of the Montana Public 21 Service Commission? 22 MR. KAPLAN: Objection to the form. 23 Α. I have not. 24 Have you ever testified as an expert 25 before the Montana Public Service Commission?

Page 37 7 - PAUL A. MARCUS -Α. No, I have not. 3 Have you ever testified as an expert 0. about any commission regulating utilities at a 5 state level? Α. I have not. 0. Have you ever testified as an expert about any utility regulatory commissions at a federal level? 10 Α. I have not. 11 Sir, are you familiar with the statutory Ο. 12 authority or the statutory structure pursuant to 13 which the Montana Power -- strike that. 14 -- Montana Public Service Commission 15 derives its authority? 16 Α. Not that I recall, no. 17 Are you familiar with any regulations Q. governing the authority or procedures of the 19 Montana Public Service Commission? 20 Can you repeat that again, please? Α. 21 MR. PIZZURRO: Can you read the 22 question, please? 23 (The question requested was read back by 24 the reporter.) 25 Α. Yes.

Page 38 7 - PAUL A. MARCUS -And what are those regulations? 0. 3 I can't specifically articulate which Α. regulations I've read. I have read through their 5 procedural announcements, their rulings on certain cases; so from that perspective, I've actually seen 7 some of their rulings. 8 MS. BEATTY: Excuse me. Mr. Marcus, can 9 you speak up a little bit? You're hard to hear. 10 THE WITNESS: Sorry. 11 Have you ever spoken to counsel about 0. 12 the regulations governing the authority of the 13 Montana Public Service Commission? 14 Objection to the form. MR. KAPLAN: 15 Α. I don't recall that specific discussion. 16 Other than in this case, what rulings of 0. 17 the Montana Public Service Commission have you And by "this case," what I mean are any reviewed? 19 rulings that the Montana Public Service Commission 20 made in connection with either the acquisition of 21 the Montana Power assets by Northwestern or any 22 subsequent approvals of financings that 23 Northwestern did which might have been required by 24 the Montana Public Service Commission.

Elisa Dreier Reporting Corp. (212) 557-5558 780 Third Avenue, New York, New York 10017

I'm sorry?

Page 39 1 - PAUL A. MARCUS -Q. Better question. 3 Other than the proceedings and decisions of the Montana Public Service Commission, which are 5 referenced in your report which is Exhibit 3, what other rulings and cases of the Montana Public Service Commission have you reviewed? 8 Α. None that I recall. 0. So is it safe to say --10 MR. KAPLAN: Just for the record, I'm 11 not sure you cited the right exhibit. I'm not sure 12 it's Exhibit 3. 13 MR. PIZZURRO: I believe it is. 14 Could you tell us -- when I say Ο. 15 Exhibit 3, I'm talking about Exhibit 3 in this 16 deposition, the deposition of today. 17 MR. KAPLAN: Okay. The deposition. 18 MR. PIZZURRO: I didn't mean any exhibit 19 to the report. 20 What is the scope of the authority of 21 the Montana Public Service Commission? 22 MR. KAPLAN: Objection to the form. Are 23 you asking for a legal interpretation of their 24 scope of authority? What are you asking this 25 witness to testify about?

- PAUL A. MARCUS -

MR. PIZZURRO: I'm asking the witness

to -- the witness testified he's reviewed, I guess

now, only what happened with respect to a couple of

instances involving Northwestern but he's offered

testimony concerning Montana Public Service

Commission. I want to know what the scope of the

authority of the Commission is.

MR. KAPLAN: I'm going to object. That calls for a legal conclusion.

MR. PIZZURRO: I wouldn't disagree with you but I would like an answer from this witness anyway.

A. Well, first, you just made a statement on the record which is talking about Montana -- what I've said to you in my prior answer is that I have a lot of experience working with commissions.

I've financed over a billion dollars worth of utility financing.

I've had to assess many different commissions' authorities and their ability to work with the utilities in those states and fully recognize that regardless of whatever the legal scope is, is that the commissions have an obligation to protect the rate payers and the

- PAUL A. MARCUS -

- constituents within their states. And I know that
- from having worked with regulators in many
- different states and having seen their opinions and
- 5 having seen how they interact with many different
- 6 utilities.

- Q. Mr. Marcus, my question was: What is
- the scope of the authority of the Montana Public
- 9 Service Commission?
- If you want to say, "I don't know,"
- that's fine. I would like an answer to that
- question.
- MR. KAPLAN: I still have an objection
- to that question.
- A. I can't give you a legal interpretation,
- but I can give you an interpretation I have as a
- layperson, which is that all commissions,
- regardless of what state they're in, have an
- obligation to protect the constituents within those
- states -- protect the rate payers and consumers in
- those states.
- Q. I didn't ask you what their obligations
- were. I asked what the scope of authority of the
- Montana Public Service Commission was, what
- authority does it have?

Page 56 Trans PAUL A. MARCUS is the contract that the OUIPS had with 3 Northwestern, that they had a right to any 4 treatment better than they received in the asset 5 transfer and liability assumption? 6 MR. KAPLAN: Objection to the form. 7 Α. I'm not sure I understand the question. 8 Your testimony as to how the QUIPS 0. holders' interests were adversely affected was that 10 ultimately they received little to nothing. 11 I assume you're speaking about what 12 happened after Northwestern filed for Chapter 11 13 and the Plan was approved, correct? 14 That's my recollection, yes. 15 The reason for that was because Ο. Okay. 16 the QUIPS holders became creditors of Northwestern 17 and were not only unsecured but ended up being the 18 most junior creditors, all other debt, even 19 subsequent debt, being senior to the QUIPS holders. 20 Isn't that why they ended up in the 21 position they did in the bankruptcy? 22 MR. KAPLAN: Objection to the form. 23 Α. I'm not sure I can give you an answer to 24 that. 25 Well, do you know whether or not the Q.

- PAUL A. MARCUS -

right to contact a Trustee of the bonds, to see if

anything could be done as a group. I know that

everyone has the right to go talk to the

5 commissions to try to persuade them that the asset

6 transfer would be problematic.

You've asked me for things they could

do. Those are definitely things that they could

do.

1

- Q. Did you review the opinion of Judge Case, which was issued in or about August of 2004, on motion to dismiss that was made in this action
- by Northwestern? Do you recall, sir?
- A. I don't recall seeing that.
- Deck in that same sentence when you say,

"impeded by the attempts of security holders and

regulators."

20

Other than the Montana Public Service

Commission, were there any other regulators that

you were referring to?

A. At one point I was thinking about some

of the possible regulators within the state in

terms of Attorney Generals, things of that nature,

but the majority of my focus was on the Montana

Public Utility Commission.

- PAUL A. MARCUS -

Q. Was that because you had reviewed some of the statements that had been made by the Commissioners in connection with the approval of the \$390 million secured financing that was accomplished in January and February of 2003?

MR. KAPLAN: Objection to the form.

- A. I'm not sure what you're asking me.
- Q. You say the majority of your focus was on the Montana Public Utility Commission. I think it's Public Service Commission, not the Public Utility Commission.

At any rate, I'm asking if your focus was because you actually reviewed some statements made in proceedings involving the MPSC in connection with Northwestern?

- A. No. My focus was on the Commission because I have experience with utility companies and commissions and know what an integral role they play in all of these things. I did ask to look at any rulings they might have made, and I did look at that one as part of my analysis.
- Q. Okay. You know that the MPSC had already approved the acquisition of the Montana Power assets by Northwestern in early 2002,

- PAUL A. MARCUS -

² correct?

- A. I'd have to go back to the specific order, but my general recollection is that they approved it, yes.
- Q. You also knew that that approval covered whether or not Northwestern kept the assets in a wholly owned subsidiary or moved them to the parent company to operate as a division along with Northwestern's other utility assets; is that correct?
- A. My recollection is that the approval was for either a separate subsidiary or as a division.
- Q. Do you have any basis for understanding whether having given that approval, the MPSC had the authority or the ability to step in and impede, as you've put it, the asset transfer?

MR. KAPLAN: Objection to the form.

A. All I can tell you is that the commissions -- from my understanding of commissions in general, is that they have broad authority over the utilities in their states. And that to the extent that this information, which is material in which they commented on extensively after the fact, if that information had been in the public domain,

- PAUL A. MARCUS -

that they would have done whatever they could have to protect their constituents. And to the extent

- that that meant taking action, I believe that they
- 5 would have done that.
 - Q. My question wasn't whether they wanted to do or not wanted to do.
- My question is: Do you know what they had the authority to do, yes or no?
- A. I haven't made a legal determination of what their authority is.
- 12 Q. You don't know, do you?

 13 MR. KAPLAN: Objection. Asked and
- answered.

- Q. Withdrawn.
- Do you know whether the Montana Public
 Service Commission in its history has ever
 rescinded approval of a transaction once that
 approval had already been given? Ever?
- A. That's a bit of a loaded question in that if you're asking me for a good transaction, did they rescind it? I don't know.
- I don't know if there have been any
 transactions where material information was omitted
 or misrepresented and they were then put in a

Page 69 7 - PAUL A. MARCUS -2 0. Well, why didn't the MPSC just say, 3 "Give the assets back to your subsidiary Northwestern Energy LLC"? 5 MR. KAPLAN: Objection. At that point, I don't know if they had Α. 7 the legal ability to do that. I just don't know the answer to your question. You also don't know whether they had the 10 legal ability to impede the going flat transaction 11 having given their approval to the transaction in 12 January of '02, correct? 13 MR. KAPLAN: Objection. 14 I'm just trying to probe the limits of 15 what your knowledge is concerning the scope of 16 authority and ability of the MPSC to act. You 17 offer an opinion they would have impeded. 18 Α. That's correct. 19 0. You don't know whether they could have 20 ordered the assets given back. 21 That's your testimony, correct? 22 Α. My testimony is I don't know the legal 23 steps that they can take. I can tell you that my 24 experience has seen a variety of different measures 25 that utility commissions have taken to protect the

Page 99 1 PAUL A. MARCUS -2 Northwestern made? 3 MR. KAPLAN: Objection to the form. you asking any specific filings? 5 Any. Did you review the Petition? 0. I don't specifically recall. Α. 7 Did you review the Disclosure Statement? 0. 8 Α. I don't recall that. 9 Did you review the Plan? 0. 10 Α. I don't recall. 11 Q. What caused the company to go bankrupt? 12 MR. KAPLAN: Objection to the form. 13 Α. As I said, I haven't seen -- I don't 14 recall seeing the documents, so I might have known 15 that at one point. I just don't know it now. 16 You don't know? 0. 17 I don't know right now. Α. 18 Sir, let me direct your attention to 0. 19 Page 43 of the report. 20 Starting with Paragraph 108 and going on 21 to Paragraph 117, do you see that, sir, under the 22 heading -- under "\$390 Million CSFB Financing"? 23 Α. I do. 24 MR. KAPLAN: If you need to read the 25 paragraph, you should.

- PAUL A. MARCUS -

7

5

10

11

12

13

14

15

Q. When you say "known to the public," that would include information known to the rating agencies as of mid-April 2003?

MR. KAPLAN: Objection.

- A. I'm not sure what your question is.
- Q. When you say "to the public," do you include the rating agencies as part of the public?
- A. When I say "public," I mean the public domain, so anyone who wanted to find that out could. It would include security agencies, rating agencies, security analyst, you and I, people.
- Q. Lenders, investors, would that be part of the public domain?
 - A. It might or might not be.
- Q. Why might it not be?
- A. I take that back. To the extent the information is in the public domain, then anybody who wants to see it can see it. I misunderstood your question. I'm sorry. It's been a long day.
- Q. When the disclosures were made in April of 2003, do you have an opinion as to whether after -- after those disclosures were made, that the bankruptcy of Northwestern was an
- inevitability?

- PAUL A. MARCUS -
- MR. KAPLAN: Objection to the form.
- 3 A. I have not analyzed that, no.
- Q. Earlier in your deposition I believe you testified -- and if I got it wrong, please correct me, Mr. Marcus.
- I believe you testified that
 Northwestern ceased paying a dividend.

16

17

18

19

20

21

22

23

24

25

- ⁹ A. I don't believe I testified to it. I believe in February of 2003 they stopped paying their dividend.
- Q. And if I understood your testimony
 earlier today, you said that when a public utility
 stops paying a dividend, that inevitably they go
 into bankruptcy.
 - A. I believe my testimony was that the company's financial advisor, Bear, Stearns in a presentation to them, made the comment that it would be a bad signal because the utilities that they were aware of that took their dividend to zero went bankrupt.
 - Q. Would you -- do you agree with that observation by Bear Sterns that you just recited?
 - A. I have no reason to disagree with it.
 - Q. Throughout your expert report,

- PAUL A. MARCUS -
- ² today.

Y

- Q. Either in preparation of your expert report or in preparation for your deposition today,
- 5 did you ever review the joint applications
- submitted by the sellers and Northwestern
- Corporation for the acquisition of Montana Power
- 8 LLC? That's the joint application to the Montana
- 9 Public Service Commission.
- A. I don't recall that.
- Q. I didn't see it listed in the exhibit to your expert report.
 - A. Then I don't believe I would have.
- Q. Did you review the transcript of the proceedings related to the joint application for the acquisition of Montana Power LLC by
- Northwestern?
- A. I don't believe I did.
- 19 Q. This afternoon in response to a question
- from Mr. Pizzurro you stated that the Montana

- the Montana utility assets; is that correct?
- A. I think I used the term that someone
- else had used in the sense that he asked what they
- could have done, and it was a description of their

- PAUL A. MARCUS -

- Q. I think I know that you don't know.
- MR. KAPLAN: Objection to the extra
- 4 commentary.

7

5

6

7

- Q. Withdrawn.
- Mr. Marcus, have you ever advised a client on financing matters involving a company regulated by the Montana Public Service Commission?
 - A. I might have. I just don't recall.
- 10 Q. In what capacity might you have done that?
- A. Most specifically, it would have been at the time when I was a lender at Bank of America.
- We lent money to companies in the utility industry.
- I was doing that out of their Chicago
- office so I was covering utilities all throughout
- the midwest. Montana was not specifically a state
- that was covered in our geographical area, although
- 19 I'm just not sure I remember whether or not some of
- the utilities that I was working with would have
- had some holding in Montana that would have caused
- Montana to regulate them.
- Q. But nothing that stands out in your mind sitting here today?
- A. That's correct.

- PAUL A. MARCUS -

1

Ą.

ζ

7

8

16

20

- Q. Do you know what utilities operate in Montana, regulated utilities?
 - A. Sitting here today, no.
 - Q. This morning I think you had testified, if I took my note correctly, that you had reviewed certain procedural pronouncements of the Montana Public Service Commission.

Do you recall that testimony?

- A. If by the "procedural pronouncements"

 you're talking about the final order to the

 dissenting order on the \$390 million bond offering,

 I did review that.
- Q. That would have been the order that came out in the early part of 2003?
 - A. I believe that was the time frame.
- Q. And that's the same order in which you quote from the dissenting opinion of Commissioner Brainard, B-R-A-I-N-A-R-D; is that correct?
 - A. That would be correct.
- Q. Other than that one particular order, did you review any other orders of the Montana Public Service Commission?
- A. I believe there were other things. I just don't recall what they were specifically.

- PAUL A. MARCUS -

certain situations and my recollection is that I
saw some other things from earlier in the time
period from the Commission. I just can't identify
them sitting here.

- Q. Would they have been other things related to the docket whose subject was the acquisition of Montana Power LLC by Northwestern?
- 9 A. That would be my general understanding, 10 ves.
 - Q. Do you have any recollection of looking at any orders of the Montana Public Service Commission dealing with dockets involving regulated utilities other than Northwestern Corporation?
 - A. I did not, no.

7

6

7

11

12

13

14

15

16

17

18

19

20

21

- Q. How did you locate those other orders? Did you find them or your staff find them or were they given to you?
- A. My staff provided them to me. I don't know if they independently found those or they requested them from counsel. I just don't know the answer to that.
- Q. Are there any opinions or orders of the
 Public Service Commission on which you relied that
 are not referenced somewhere in your expert report?
